About the Regal Lady and Coronie...

When you are aboard our steamers your comfort and safety is always our first priority.

You travel back in time on one of the few remaining ships still operating that saw National Service during the Second World War. Both ships being part of the Evacuation Fleet from the beaches of Dunkirk in the summer of 1940.

We offer comfortable seating, bars, toilets and for landlubbers out there, we always cruise in smoothish waters and we are also regularly inspected by H.M. Coast Guard.

So sit back, relax and leave everything to our friendly crew as we show you some of Scarborough's most beautiful assets, the superb coastline of coves and cliffs.
